

## Internet and Mobile phone Safety

1. Stay anonymous- choose a **genderless** user name
2. Never give name or full address to strangers
3. Don't respond to **harassing** or negative messages
4. Avoid uncomfortable situation quickly
5. Watch what you say- don't **flirt online**
6. Learn more about internet privacy
7. Don't give email ID to strangers
8. Frequently **change** your password and answer to the '**secret question**' of email created.
9. Don't disclose your password to any one, not even to your friends
10. Don't hesitate in filing a complaint with the police if there is any cyber fraud
  - Do not allow others to **click photos** without your permission
  - Do not reply to sms(short messaging service) and mms(multimedia messaging service)from strangers
  - Do not send obscene text or images though mms
  - Do not give your numbers to strangers while chatting online
  - Do not keep the Bluetooth open to all
  - Do not give mobile to unauthorized service centre to avoid '**Cloning**'. They may multiply the images or video.
  - Use security pin code of mobile phone to avoid misuse
  - Do not share your photos to strangers to avoid misuse such as **Morphing**

## **Chat Rooms**

- Take extreme care during online chatting and browsing blogs and web pages. Hackers are waiting for you.
- Do not reply to anonymous messages and do not give mail ID or full address in such web pages
- Use a genderless login name
- Frequently change passwords
- Do not go to links if you feel it is fake
- Don't reply to money offers through mails. They will hack your details.
